

CEO MESSAGE

Pyramid Corporation is a privately owned Canadian company with an extensive history of providing service and product to industry within Western Canada and the United States of America.

Our firm offers a broad range of services, including electrical/instrumentation maintenance and construction, control panel manufacturing, meter proving, well testing, and the specialized repair of ESP submersible pump cables.

To further compliment these services, we also operate numerous subsidiary companies to Pyramid Corporation. We maintain a state of the art facility in Nisku Alberta, which houses a fully certified process equipment fabricator and compression package manufacturer. Both offer in house product design and strictly adhere to a comprehensive QA/QC program. We also operate two very successful and specialized instrumentation repair and distribution companies, which are located in Drayton Valley and Edmonton, Alberta.

We support a network of branch offices throughout western Canada and the United States. Each office has been strategically located to offer complete maintenance, construction and material procurement services to our clients in the petroleum, petrochemical, mining, wood products, agricultural, and industrial sectors.

Pyramid Corporation maintains an active, fully integrated Corporate Health and Safety Program throughout our business operations. We pride ourselves in providing high performance coupled with the safest possible service to all of our clients. Additionally, total customer satisfaction, employee safety, employee education, and being a responsible member of the community is our main focus in the day-to-day operations of all the companies. We hope to be of service to you in the future.

We appreciate your interest in our products and services. For additional, detailed information regarding Pyramid Corporation, please refer to this website or call our main office toll free at 1-800-955-2988.

Don Basnett
President/CEO
